

MY INTERNET
DELIVERED
ACCOUNTABILITY

www.netstorming.net · info@netstorming.net

Accounting cloud based software made for Tour Operators and Travel Agents. Discover it now.

> Front Office:

Invoicing

Simple and automatic, ranging from the emission to delivery, up to the online publishing.

Reports

Provides the essential reporting tools to monitor the accounting state.

- **Statements**
- **Customer records**
- **Supplier records**

XML, Excel and PDF Exports

Allows interoperability with a wide range of 3rd party sharing and publishing tools by exporting system data into the most popular exchange formats.

Manage your customers and suppliers records

The complete and easy to manage data entry system allows for example to automatically send notices and invoices.

> Back End:

Chart of accounts management

Fully customizable to the specific needs of any tour operator.

Inserting and managing of accounting documents

Complete management of the most common accounting cases.

General Ledger Printing

The general ledger printing system allows full content and format customization.

Active and Passive invoicing

Automated or assisted active/passive invoice registration.

Integration with on-line booking systems

Makes it easy to import dossiers from external online booking systems.

Full integration with TOWeRS, our powerful booking system

Allows the customer to download the invoices straight from the online point of sale.

Automatic reconciliation/registration

Interfaces to 3rd parties for automatic issue and registration of passive invoices, sending and reporting of active invoices and recording of payments made via the major payment gateways.

- **Supplier systems** (Tour Operators)
- **Customer systems** (Tour Operators and Agencies)
- **Payment gateways**
